

## **AGP CALL TO ACTION – BIODIESEL TAX CREDIT**

Dear Valued AGP Member:

AGP's longstanding support for biodiesel reflects our belief in this advanced biofuel's positive impact on farmers, rural communities, and the environment. Biodiesel demand has increased the price of soybeans by over \$0.60 per bushel and supports nearly 62,000 U.S. jobs.

This week, a bill was introduced in Congress that would provide a necessary and long-term tax credit to support this vital industry for rural America. AGP fully supports this bill and respectfully requests your help in securing support for its passage.

The national trade association for the biodiesel industry, the National Biodiesel Board, has provided on its website a very simple mechanism for you to submit a statement of support for this bill to your U.S. Senator and Member of Congress. The link, form letter, and instructions can be found here: <https://p2a.co/cuG7Nct>. This process will take less than a minute of your valuable time and be very helpful to our grassroots effort to secure passage of this biodiesel tax credit.

We thank you very much for your assistance as we work together to help secure this necessary and important long-term tax credit support for the U.S. biodiesel industry.

Sincerely yours,

Keith Spackler  
CEO, AGP
